How to maintain a ball

Put air pump into a ball vertically.
Loosen the valve of the air pump to deflate the ball.

How to clean a ball

1. Dissolve small portion of neutral detergent for dish washing into cold water.
2. Use a soft sponge on the surface. Do not use steel-wool.
3. Wash a ball in the detergent water with the sponge.
4. Rinse well and gently. Towel dry with a microfiber cloth is highly recommended. Do not scratch with hard surface towel.
